

MISSOURI

What can I say.....mid July.....HEAT.....and Pomme de Terre Lake. We did not have as big a turnout as might be expected with only 20 boats and 40 anglers in attendance. Temperatures were over 100 degrees and little to no air moving on Saturday. Needless to say anglers were ready to find a shady spot when they came off the water. Anglers did come to the scales with a total of 87 fish to be weighed in. Largest bag of fish weighed 13.28 lbs.

Sunday was the same for weather except for a pretty good breeze blowing which kept us going and still looking for fish. In coming into the scales, there was no waiting as all were ready to get out of the heat and find a shade tree. There were a total of 91 fish weighed in on Sunday so the two days were pretty consistent. Big bag of fish was 13.64 which was really close to Saturday. Soft plastics seemed to be the bait of the series.

Thanks to all for a successful Series. As this is the end of our State Opens, we are now headed to Stockton Lake for the State Championship in October.

The top four qualifiers from the Open Series that will be on the State Team are Sean McBee, Eddie Wolfe, Rodney Bowersox, and Tim Merkh.
