

The first 2012 qualifying event for MO TBF Youth took place on a very hot and humid day with very little wind blowing. All anglers arrived early and were eager to go fishing. They brought a total of 14 fish to the scales and all 14 were released alive and well back into the water. That is a great accomplishment for the weather conditions. Sure that all anglers and their boaters were ready to find a cool spot for a while after the tournament was over.

We want to thank all the parents and friends who supplied boats and their time to support our young anglers. It is greatly appreciated.

Look forward to seeing all at the next event.

Thank you,

Carol
